Foreword to the Second Edition \hspace{1cm} v

Introduction: The Author and His Work \hspace{1cm} 1
   About the Author \hspace{1cm} 3
   Why We’re Publishing This Book \hspace{1cm} 5
   The Foundations of Lean Product and Process Development \hspace{1cm} 7
   Invitation to Read On \hspace{1cm} 11

Chapter 1: Purpose \hspace{1cm} 13
   The Basic Secret \hspace{1cm} 14
   The System, and How I Learned It \hspace{1cm} 16
   Why You Need this Book \hspace{1cm} 17
   How this Book is Organized \hspace{1cm} 19

Chapter 2: Value and Performance \hspace{1cm} 21
   Producing Profitable Operational Value Streams \hspace{1cm} 22
   Project Performance \hspace{1cm} 23
      Project Return on Investment \hspace{1cm} 24
      Market-share Change \hspace{1cm} 26
      Project Defects \hspace{1cm} 27
   Focusing on Creating Usable Knowledge \hspace{1cm} 31
   Out-learning the competition \hspace{1cm} 34
      Cycle Time from Concept through Simulation and Test Results \hspace{1cm} 34
      Knowledge Grade and Rate of Change \hspace{1cm} 35
      Lead Time between Technical or Market Opportunity and \hspace{1cm} 36
         Full-rate Production of a Winning Product
   Summary: The Learning-to-Costs Ratio \hspace{1cm} 39

Chapter 3: Seeing Waste in Development \hspace{1cm} 41
   Scatter \hspace{1cm} 44
      Barriers to Communication \hspace{1cm} 47
      Poor tools \hspace{1cm} 49
   Hand-off \hspace{1cm} 51
      Useless Information \hspace{1cm} 56
      Waiting \hspace{1cm} 58
