BOOK CLUB QUESTIONS

1. What is YOUR philosophy of efficiency and how does it contribute to making a profit?
2. Why is overproduction the worst form of waste?
3. Why analyze work with three categories rather than just two (value creating versus waste)?
4. Identify one example of each of the “levels of automation.”
5. Why is it important to identify (and fix) quality problems immediately at the source?

We would like to hear from you about how your book club works, the value to your team learning, and what you plan to read next.
