

# ***The Work of Management***

## **A Daily Path to Sustainable Improvement**

### BOOK CLUB QUESTIONS

1. What does an improvement project we put in place two years ago look like and how is it working right now? (Go see)
2. How do small cross functional problems get resolved in our organization today?
3. How do we know if Safety, Quality, Cost and On time delivery are happening and will happen at standard today?
4. How do we decide which problems to solve at the root today vs fix the output of the problem expecting to have to fix it again next time?
5. What is our system today for supporting the work of the “operators in our business”

We would like to hear from you about how your book club works, the value to your team learning, and what you plan to read next.
